# MICRO DAILY

High-Performance Micronutrients to Power Your Life

MD

A powerful patent-supported combination of micronutrients that, through extensive research, have been proven to be the most advanced daily supplement available.

When you burn energy, your body creates cell-damaging molecules known as “free-radicals” that cause inflammation. Micro Daily helps you take the offensive by delivering a broad range of micronutrients and important antioxidants designed to neutralize free radicals and strengthen your ability to combat them over time.

- Cellular defense of free radical damage
- Increases mental clarity and focus
- Powerful detoxification and immune support
- Improved mood and immune function
- Help maintain normal cardiovascular function
- Support joint and tissue health

“I spent my entire career researching ways to protect our bodies from the damaging effects of inflammation and oxidative stress—the sources of most chronic diseases. Left unchecked, they can speed the process of breaking down cells and make repair and healing much more difficult. Micro Daily was built to combat both while helping you achieve optimal health.”

- Dr. Kedar N. Prasad Ph.D. Chief Science Officer and Product Formulator

His research included 14 scientific studies and 7 human clinical trials. This research resulted in 4 functional patents and 3 formulation patents.

# PROTEIN DAILY

Mighty Protein To Restore, Rebuild, and Power Your Life

PD

A combination of proteins, amino acids, fiber, and other important micronutrients that fill important gaps in nutrition, boost your metabolism, satisfy your hunger and improve your digestion.

Decades of science and research informed the development of this unique formula that combines two forms of protein, two forms of fiber, amino acids, and citrulline into an effective and powerful energy source that will help your body perform optimally.

- Delicious, no sugar, low carbohydrates
- Two types of protein satisfy you longer
- Boost your metabolism and energy
- Stabilize and promote good digestion
- Recover quickly and protects muscle mass

Whey & Whole Egg Protein - Whey protein for immediate energy and whole egg protein for a sustained energy.

Essential Amino Acids - Speed up your recovery from a particularly strenuous day or workout.

Citrulline - improves the dilation of blood vessels to help oxygen better deliver important energy to the body.

Soluble & Insoluble Fibers - Soluble fibers accelerate the elimination of toxins in the body and promote the movement of material through the digestive system. Insoluble fibers produce butyric acid—protecting you against a variety of intestinal issues while improving absorption, keeping your gut healthy, and lowering blood cholesterol and glucose levels.

# BRAIN BOOST DAILY

Feed, Strengthen, and Sharpen Your Brain

BB

Your brain is the most important organ in your body. It controls everything you do. Housing 100 billion neurons, it is the control center of your body and is constantly at work.

Your brain requires daily maintenance and nourishment for optimal performance. By optimize your brain function, Brain Boost Daily delivers you the focus, clarity and long-term performance you can feel good about. Carefully formulated to work in cooperation with Micro Daily, Brain Boost has the power to improve brain and memory function by reducing oxidative damage and inflammation that causes environmental and age-related decline.

- Master mental focus and concentration
- Improve memory function
- Sharpen your senses
- Increase energy efficiency
- Fight mental fatigue and the effects of aging

These are just a few of the incredible ingredients found in Brain Boost! Brain Boost includes Nrf2 activators that will increase the levels of antioxidant enzymes and detoxifying enzymes—essential for protecting neurons against damage produced by free-radicals and pro-inflammatory toxic chemicals. MicroRNAs protect neurons by reducing the levels of the proteins that damage them and enhancing the levels of the proteins that protect them protect the brain with Vitamin E Succinate that crosses the blood-brain barrier. Resveratrol and curcumin work together to protect nerve cells by reducing oxidative damage and pro-inflammatory toxic chemicals.
