MICRO DAILY

THE MOST VALIDATED SUPPLEMENT EVER

Micro Daily is the result of a combination of the right antioxidant micronutrients in the proper quantities, using specific natural biologic forms. This groundbreaking formulation lays the foundation for our proprietary CQF standard, combination, quality, and form—the components necessary to ensure accuracy in unlocking the body's full potential by maximizing absorption and delivering maximum results.

With over \$24 million dollars in public and private research spent to validate Micro Daily's efficacy, it has no rival. The research included 14 scientific studies and 7 human clinical trials. Four functional patents and 3 formulation patents later, Micro Daily is well supported as the world's most advanced and effective micronutrient supplement.

*C.R.A.D.A. SPONSORS	PURPOSE	SUBJECTS	HUMAN TRIALS	SUPPORTING U.S. PATENT	ISSUE DATE	PATENTED FUNCTIONAL USE
NASA	DNA Protection and Repair	Patients	Erlangen University, Nuremberg, Germany	7.449.451	NOV 11, 2008	Antioxidant Micronutrients as Systematic Biological Radioprotective Agents Against Potential Ionizing Lowdose Radiation Risks.
U.S. NAVY	Concussive Blast Injury (Hearing and Balance) Protection	U.S. Marines	San Diego Naval Medical Center	7.635.469	DEC. 22, 2009	Micronutrients for Hearing Health
AUDIOLOGY ACADEMY	Tinnitus Improvement	Member Doctors	Audiology Academy	7.635.469	DEC 22, 2009	Micronutrients for Hearing Health
U.S. NAVY	Altitude and Environmental Protection	U.S. Marines	Mountain Warfare Training Center	7.628.984	DEC 8, 2009	Micronutrients for Pulmonary and Heart Health
METRO FIRE DEPARTMENT	Improvement in Lipid status and regression of carotid artery thickness	Firemen	Denver, Colorado	7.628.984	DEC 8, 2009	Micronutrients for Pulmonary and Heart Health
U.S. ARMY	Cellular Damage Reduction and Immune Protection	Volunteers	Montevideo University, Uruguay	7.628.984	DEC 8, 2009	Micronutrients for Pulmonary and Heart Health
U.S. ARMY	Type II Diabetes Protection	U.S. Army	Walter Reed National Military Medical Center	7.605.145	OCT 20, 2009	Micronutrients for treatment of Diabetes Mellites

ADDITIONAL SUPPORTING RESEARCH

The following outlines the additional research that either directly or indirectly contributed to the creation of Micro Daily.

Animal Studies Supporting Product Development

- 1. Murine radiation model; Armed Forces Radiobiology Research Institute
- 2. Rabbit radiation model; NASA, Russian Academy of Sciences
- 3. Sheep radiation model; NASA, Russian academy of Sciences
- 4. Fruity (genetically altered) radiation model; Ames Research Center, NASA
- 5. Murine hyperbaric oxygen model; Naval Medical Research Center
- 6. Rodent overpressure blast model; Naval Medical Research Center
- 7. Rodent Parkinson's disease model; Meharry Medical College

Cooperative Research and Development Agreements

- 1. Space Act Agreement NASA.
- "Development of a Successful Protection Formula Against Radiation-Induced Oxidative Injury in Vulnerable Populations."
- 2. US Navy CRADA NMRC-06-2338
- "Investigations into the Efficacy of an Antioxidant- containing Micronutrient Formulation for the Treatment of Hearing Loss and Balance Disorders Associated with Blast Injuries."
- 3. US Navy CRADA NMRC-06-2383
- "The Effects of Antioxidant Supplementation to Protect Against Cold at High Altitude."
- 4. US Army CRADA W81XWH-07-0321
- "Efficacy of Multiple Antioxidants in Reducing Damage Produced by Mustard Gas."
- 5. US Army CRADA W91YTZ-10-P-0773
- "Evaluation of the Effects of Micronutrients in Combination with Standard Therapy in the Management of Type 2 Diabetes."
