

Dr. Kedar Prasad

The Engage Difference • Our Chief Innovator

Dr. Kedar Prasad, Chief Science Officer, and Product Formulator

Dr. Kedar Prasad became the worlds first Radiation Biology Ph.D. when he earned his degree from the University of Iowa in 1963. He received post-doctoral training at the Brookhaven National Laboratory, Long Island, New York, and joined the Department of Radiology at the University of Colorado Health Sciences Center where he became the professor and director for the Center for Vitamins and Cancer Research.

His Impressive List of Accomplishments Includes:

- First Radiation Biologist Ph.D. in the world
- Authored 25 books on micronutrients
- Published more than 250 peer-reviewed articles
- President of the International Society of Nutrition and Cancer
- Dedicated more than 40 years to the development of the CQF standard: the foundation for all Engage Global proprietary product formulations
- Discovered the antineoplastic potency of Vitamin E Succinate
- Member of the British Royal Academy of Medicine
- Member of the Nobel Prize Nominating Committee in medicine
- Worked with the US DOD to research antioxidant micronutrition to address the effects of trauma and stress associated with war
- National Institute of Health awarded Dr. Prasad over \$500,000 every year for 30 years for research and development.

The CQF Standard - Where Science Meets Nutrition

Easily one of the most published experts on nutrition, cancer, neurological diseases and the effects that micronutrients and antioxidants have on each, Dr. Prasad is frequently sought after for his expertise and extensive experience with nutrition. When approached by the US DoD to help develop a product that would radically decrease the effects of trauma on the military forces, he developed the world's most advanced daily supplement, Micro Daily. With 14 clinical trials behind it, its efficacy and value are proven.
